

FRONTLINE® TOP SPOT® FOR DOGS AND PUPPIES

Merial

Topical Insecticide

EPA Reg. No.: 65331-3

Active Ingredient(s):

fipronil:	9.7%
Inert Ingredients	90.3%
Total	100.0%

Indications: FRONTLINE® provides convenient and effective flea and tick control for dogs and puppies.

Directions for Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. To prevent harm to you and your pet, read entire label and directions before each use. Follow all directions and precautionary statements carefully. Use on dogs only. Do not use on any other animals.

To kill fleas and all stages of brown dog ticks, American dog ticks, lone star ticks, and deer ticks (the major carrier of Lyme disease), apply to dogs and puppies (10 weeks or older) as follows: Remove applicator from child-resistant package. Hold applicator upright and snap applicator tip away from face and body. Place applicator tip through animal's hair to the skin level between the shoulder blades. Squeeze applicator, applying entire contents in a single spot to the animal's skin. Avoid superficial application to the animal's hair. Only one applicator per treatment is needed.

Frequency of Application: Research demonstrates that FRONTLINE® kills fleas up to three months and ticks for at least one month. A once monthly use is recommended where there is a high risk of reinfestation, if the pet has fleas which may cause flea allergy dermatitis, or in situations where tick control is needed. When used monthly, FRONTLINE® completely controls both flea and tick infestations.

In areas with less severe flea infestations, or in areas where ticks are not a threat, FRONTLINE® can be applied once every two to three months.

FRONTLINE® remains effective even after bathing, water immersion, or exposure to sunlight. Avoid contact with treated area until dry. Do not reapply FRONTLINE® for 30 days.

Precautionary Statements: Hazards to Humans: Caution. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

Hazards to Domestic Animals: For external use only. Do not use on puppies under 10 weeks of age. Individual sensitivities, while rare, may occur after using any pesticide product for pets. Pets may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian immediately. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated animals. Consult a veterinarian before using this product with other pesticides. This product may be harmful to debilitated, aged, pregnant, or nursing animals; consult a veterinarian before using. Call 1-800-660-1842 for 24-hour assistance.

Physical or Chemical Hazards: Flammable. Keep away from heat and open flame.

First Aid:

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

If in Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

Storage and Disposal: Do not contaminate water, food, or feed by storage and disposal.

Storage: Store unused product in original container only, out of reach of children and animals.

Pesticide Disposal: Waste resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

Warning(s): Keep out of reach of children.

Disclaimer: Warranty: Seller makes no warranty, expressed or implied, concerning the use of this product other

than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.

Discussion: Fast acting and long lasting. Prevents reinfestation. Convenient to use. Kills newly emerged adult fleas before they lay eggs. Controls fleas which may cause flea allergy dermatitis. Kills all stages of brown dog ticks, American dog ticks, lone star ticks, and deer ticks (the major carrier of Lyme disease).

FRONTLINE® contains the active ingredient fipronil which has a unique mode of action that effectively targets fleas and ticks. Fipronil collects in the oils of the skin and hair follicles, and continues to be released from hair follicles onto the skin and coat, resulting in long lasting activity.

Presentation: For dogs and puppies up to 22 lb, yellow package with three or six 0.023 fl oz (0.67 mL) applicators.

For dogs 23-44 lb, blue package with three or six 0.045 fl oz (1.3 mL) applicators.

For dogs 45-88 lb, purple package with three or six 0.091 fl oz (2.68 mL) applicators.

For dogs 89-132 lb, red package with three or six 0.136 fl oz (4.02 mL) applicators.
